Asters have been a leading specialty of Vicks for many years. Some of today's most popular varieties were Vick introductions. Growers not only depend upon Vick for their Aster seed requirements, but for a general line of both flowers and vegetables. They know they can depend upon Vick for the Highest Quality Seeds. In addition to the high quality of Vicks Seeds, you will find our prices are very low—many are lower than last year. Some varieties are in short supply. We suggest that you place your order early.

Giant and Super Giant Varieties which may be depended upon to make an Impressive Display

Giants of California

This improved strain of Giants of California possesses all the good points an up-to-date Aster should have—large double flowers, long stems, and excellent keeping qualities. A new Aster of the branching Comet type, its huge flowers feathered and fluffy and very deep like huge Japanese Chrysanthemums. The plants grow 2 to 3 feet high with long, wiry branches measuring 18 to 24 inches in length, making this one of the most desirable cut flower varieties on the market. The size of the flowers, 5 inches across or more not being unusual, is notable. Beautiful colors.

The plants are 2½ to 3 feet tall, and the flowers are carried on quite long stems.

1243 El Monte. Deep glowing crimson; these large, thick flowers are fluffy and of graceful appearance. They are composed of daintily interlaced, plume-like petals. The latest of the Super Giants, Special Mention 1936 All-America trials.

The flowers have long, narrow petals folded lengthwise, appearing almost quilled, which gives them a bold and striking appearance. King Asters are favorites with many Aster growers, and are highly prized in the home garden. The flowers have unusual keeping quality, lasting longer than those of many other classes.

Our Rochesters produce vigorous, well-branched plants which carry the immense blooms in a stately manner on long, stiff stems.

Rochester Asters are foremost for cut-flower purposes and make ideal subjects in the garden. Blooming time is right after the early midseason varieties.

Vicks Famous Giant Branching Asters

Our Own Introduction

World renowned, these giant, fully double, globe-shaped Asters are among the most famous of all Asters originated by Vicks.

The exquisite blooms, 3½ to 4 in. in diameter, are produced on stems frequently 2 ft. long. They have broad, artistically placed, incurved petals and are fully double.

The plants grow 2 to 3 ft. tall and branch freely, blooming from midsummer to frost. They are ideal for cut flowers and are brilliant for garden display.

Vicks Branching Asters are indispensable for the florist, which accounts for the fact that this outstanding type is catalogued by seedsmen the world over. Home gardeners would not be without them, for they come into bloom when many other flowers are well past their prime.

Vicks Branching Asters are being steadily improved so that they surpass the type sold only a few years ago, and are still among the best late commercial varieties.

GIANT CALIFORNIA SUNSHINE ASTER

★

The introduction of Wilt-Resistant varieties is responsible for a great renewal of interest in Asters, for everywhere gardeners were ceasing to grow them because of trouble from Aster Wilt. Now this spring more Asters than ever will be planted as the public becomes acquainted with Wilt-Resistant varieties, and realizes that with them can be had a fine healthy planting of this Queen of Autumn Flowers.

VICKS SUPERB LATE "PEERLESS" ASTERS ★ ★ ★

All varieties marked WR (Wilt-Resistant) are bred for Resistance and are practically immune to Aster Wilt

ASTER, PEERLESS BLUE (WR)

★

For wide range of color, beauty of flowers, general usefulness, and popularity, no other annual flower can compare with the glorious Aster, Queen of Autumn Flowers. Nine-tenths of the better known Aster varieties were introduced by James Vick. For best results with Asters, plant the originator's own strain. Vicks Asters are famous for quality.

Each of the three Peerless Asters is so highly meritorious that it is known as an individual rather than as a member of the group. Wherever the Peerless Asters are displayed, they always attract instant admiration. The large flowers, freely double and quite globular, have long wiry stems and gracefully recurved petals. The branching plants are vigorous, growing $2\frac{1}{2}$ to 3 feet tall. They bloom towards the end of the Aster season.

Vicks Peerless Yellow (No. 1207)

This is the famous Peerless Yellow which remains the best and most satisfactory Yellow Aster in spite of other yellows introduced more recently. True, light yellow, Peerless Yellow is one of the most unusual—the most notable of all our introductions. So numerous, so large are the flowers that each plant is completely covered—like a yellow dome. A single plant will frequently have from twenty to thirty good stems of sufficient length for cut-flower purposes. The flowers are large, remarkably full and ball-shaped, with centers deeply covered with curled and twisted petals. They are so double that little seed is produced, so the seed is rare.

Pkt. 25c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 85c; oz. \$2.50.

Vicks Peerless Blue WR (No. 1214)

Clear and rich in color, this is the finest blue Aster yet introduced. It is a splendid addition to the Asters of the Late Branching type. The blooms are large and fully double with gracefully recurved petals. The strong plants produce many flowers.

Pkt. 20c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c; oz. \$1.75.

Vicks Peerless Pink WR (No. 1256)

Unquestionably the finest pink in the late flowering, branching class. The flowers—they average about 4 inches in diameter—are ball-shaped and double to the very center. The color, sometimes referred to as "improved shell-pink," is warm rich pink of unusual purity and beauty. The arrangement of the petals is most artistic.

Pkt. 15c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c; oz. \$1.75.

Ave Marie

1147 White. Late. A marvelous variety with immense, pure white, beautifully formed blooms that, although introduced only recently, has become a favorite with florists and home gardeners alike. It is a quality Aster, the blooms measuring 4, 5 and 6 inches across. When they first open they appear quilled, for the petals are folded lengthwise, but as they expand the long petals become quite flat. The plants are luxuriantly branching, measuring 2 feet in height, and have long, sturdy, very graceful stems.

Pkt. 20c; $\frac{1}{8}$ oz. 35c; $\frac{1}{4}$ oz. 60c; oz. \$1.75.

Vicks Silvery Asters

Wilt-Resistant

Vicks Silvery Pink WR (No. 1215)

Vicks Silvery Asters are so named because of the delicate silvery sheen which seemingly overlies the predominating color—adding charm and beauty. Silvery Pink is a warm glowing pink self, but, depending on how the light strikes the flowers, it is reflected in a silvery sheen which, at times, seems to envelop the whole flower, while at other times an entrancing bicolor effect is created by the highlights and shadows on the curled petals. The 2 to 3 ft. tall plants are of branching habit, and very vigorous, producing a splendid crop of long-stemmed flowers late in the season.

Pkt. 25c; 1/8 oz. 35c; 1/4 oz. 60c; oz. \$1.75.

Vicks Silvery Rose WR (No. 1216)

Silvery Rose is the original Silvery Aster. The silvery effect given by the flowers of this variety is due not only to a natural luster of the petals as in the Silvery Pink Aster, but because of a very delicate, almost invisible, threading of white on the petals which are deep lilac-rose—almost cerise. The threads are so fine that they give the petals a silvery sheen rather than a striped appearance. Even the slightest change in light will change the color from glowing rose to silvery rose, and lights and shadows are constantly at play over the beautiful blooms. Late-flowering.

Pkt. 15c; 1/8 oz. 30c; 1/4 oz. 50c; oz. \$1.50.

Vicks Autumn Glory WR (No. 1195)

A Money Maker for the Commercial Grower

Latest of Asters. A truly beautiful Aster that blooms after the other Late Asters are past their prime, and before the Chrysanthemums are well on the market. With the Mammoth Peony-Flowered it prolongs the Aster season by two weeks, coming at a time when good garden flowers are scarce.

Pure sea-shell pink, the flowers are very double and are borne on stems of unusual length. Though similar to Mary Semple (Late Branching) in color, Autumn Glory has a better, more substantial flower, and a deep and longer-keeping color. While Autumn Glory cannot take the places of varieties like Pink Enchantress or Peerless Pink, it supplements them by blooming later. It is always uniformly true to color and type. 2 to 2½ feet tall.

Pkt. 15c; 1/8 oz. 30c; 1/4 oz. 50c; oz. \$1.40.

Ball Aster

975 Sulphur Yellow. Flowers are globular, fully double, the centers made up of many quill-like florets of deep sulphur-yellow surrounded by a single row or collarette of light creamy yellow ray petals. The striking flower-form and color of this distinct Aster make it most popular for garden and cutting. Plants grow 10 to 12 inches tall, of uniform, compact growth and extremely profuse blooming.

Pkt. 25c; 1/8 oz. 35c; 1/4 oz. 60c; oz. \$1.75.

VICKS FAMOUS AUTUMN GLORY ASTER (WR)

★

The importance of sowing the best Aster seed cannot be over-emphasized. It is not your investment in seeds that counts—it is your returns from it. The returns from your crop are dependent upon its quality, and quality products can only be grown from fine seeds. Sow Vicks famous Aster seed for best results with larger and finer Asters.

VICKS SELECT STRAINS OF LATE FLOWERING ASTERS

(Continued)

Mammoth Peony-Flowered Asters

This is, without doubt, one of the finest of all late-flowering Asters. The plants are of unusually showy growth, attain a height of from 2½ to 3 ft., and produce strong flower stems 15 to 20 in. long. The immensely large double blooms, 4 to 5 in. across and almost as deep, are composed of innumerable, rather broad petals which fold gracefully toward the center, giving the flowers the appearance of Peonies. Excellent for cutting.

- 1130 **Azure Fairy.** Beautiful, clear azure blue flowers with silvery reflex.
- 1131 **Maiden's Blush.** Delicate flesh-pink overlaid with warm pink.
- 1132 **Peach Blossom.** Aptly named, it has all the loveliness of a peach blossom.
- 1128 **Purple Robe.** Large, very thick flowers of a very deep shade of purple-blue.
- 1127 **Rosebud.** Lustrous as an opening rose.
- 1129 **Silvery Rose.** Delicate lavender-pink with silvery tones and rosy depths.
- 1133 **Swansdown.** Magnificent, well-rounded, snowy white big blooms.

Any of the above: Pkt. 20c; ½ oz. 30c; ¼ oz. 50c; oz. \$1.50.

1134 Mixture of All Colors

The seven colors, described above, blend together beautifully, making this a prize mixture which florists will find useful. Peony Asters are admirably adapted to growing for market and are excellent for shipping. The class is a new one, the colors those soft lovely ones which now are being developed.

Pkt. 15c; ½ oz. 25c; ¼ oz. 45c; oz. \$1.35.

Heart of France (No. 1213)

Wilt-Resistant Strain

Heart of France is one of the many Vick Asters which have helped to spread our fame around the world, and today is offered in the catalogs of nearly every seed house. Scintillating in the brilliancy and clearness of its unusual color tone, like the limpid fires of the rarest ruby.

Heart of France is the purest red Aster ever introduced, opening pure ruby-red and deepening with age, but retaining its remarkable beauty to the very end. The petals appear strikingly changeable, showing now a unique glow and sheen, now a soft, warm, velvety texture. In any light, natural or artificial, it commands admiration.

Heart of France is one of Vicks Branching Asters with large and full flowers on very robust plants. The stems are long and strong. The plants begin to bloom quite early and open fully with midseason varieties, retaining their brilliance and luster for a longer period than most any other color. When we named this magnificent bloom "Heart of France," the French Ambassador, later President of France, wrote us in appreciation of the tribute.

Pkt. 15c; ½ oz. 30c; ¼ oz. 50c; oz. \$1.50.

MAMMOTH PEONY-FLOWERED ASTER

★

The grower of Asters for cut flowers should not overlook his opportunity to market small Aster plants. To sell small Aster plants at a profit, they should be well grown and healthy appearing. A better price can be asked for novelties. The grower who has no market for his plants might well contact local garden clubs, since members of these clubs are usually interested in securing good plant material.

"Crown of Gold" MARIGOLD

1937 GOLD MEDAL WINNER

A florists flower par excellence! Not only a new Marigold, but an entirely new flower, unusual and attractive. The crown or top part looks like a Chrysanthemum made up of long, incurved petals. The crown and collar of big, broad petals which surround it are of an exquisite luminous shade of golden orange, quite novel in Marigolds. The foliage is entirely odorless; the flowers are sweet-scented, 2½ inches across. An excellent cut flower for forcing in gentle heat and unsurpassed for garden display. Pkt. 25c; 1/8 oz. 90c; 1/4 oz. \$1.50; oz. \$5.00.
